ATHENS

7 - 8th December 2019

7th : Dr J.Choukroun

8th : Dr C.Nacopoulos

Successful regenerative therapy in oral surgery and facial aesthetics

Day 1 PRF in oral surgery with Dr J.CHOUKROUN

1/ The latest updates: A-PRF, S-PRF, i-PRF+, Sticky Bone with variable density.

2/ Peri-implantitis and marginal bone loss: finally the solution!

The literature has failed in the rational explanation of peri-implantitis and bone loss.

Whether in the native bone or the grafted bone! And yet, these mechanisms are perfectly explained in the manuals of Human Anatomy & Physiology!

Program :

- Relevance of protocols with the **concept of low speed centrifugation (LSCC)**: A-PRF+, i-PRF, Sticky Bone, interest of preoperative injection of liquid PRF
- Indications and instructions for use
- Biological factors for **long-term success**: Tension, Pressure, Vitamin D, Cholesterol.
- **Peri-implantitis and bone loss**: Physiological approach. Prevention and solutions
- Presentation of **clinical cases** and protocols according to indications.
- **Live demonstration**

+ **Optional** : Phlebotomy course

Day 2 PRF in facial aesthetics with Dr C.NACOPOULOS

New trends in regenerative medicine for facial aesthetics with smart blood derivatives. Cleopatra Technique™

Prof. Cleopatra Nacopoulos, the leader in facial aesthetics by using PRF liquid, will held the course and share her experience of how to incorporate this innovative technology in every day practice.

The course objective is the introduction of facial aesthetics as a means to improve the patient's overall appearance, and is not limited to their dental condition. The use of i-PRF+ & A-PRF liquid (*Cleopatra Technique™*) is an innovative procedure for skin rejuvenation that can be used in every-day practice, with a maximum cost/benefit ratio for both the physician and the patient. There will be presented all injection techniques step by step as well as pre and post treatment instructions and complication management. Healthcare professionals have successfully incorporated growth factors in their practices, often in conjunction with other modalities such as hyaluronic acid, botulinum toxin injections, PDO threads and laser treatments.

Day 1

PRF in oral surgery with Dr J.CHOUKROUN

THEORITICAL PART

08.30 - 09.00 : Welcome & Registration
 09.00 - 10.30 : Conference
 10.30 - 11.00 : *Coffee break*
 11.00 - 13.00 : Conference
 13.00 - 14.00 : *Lunch*
 14.00 - 16.00 : Conference
 16.00 - 16.30 : *Coffee break*
 16.30 - 17.30 : Conference
 17.30 - 18.00 : Demo
 Question and Answer Session

PRACTICAL PART

Optional Phlebotomy Course

Day 2

PRF in facial aesthetics with Dr C.NACOPOULOS

THEORITICAL PART

08.30 - 09.00 : Welcome & Registration
 09.00 - 10.00 : The role of dentist in facial aesthetics Aging and Anti-aging, characteristics and prevention
 10.00 - 11.00 : Skin and lip anatomy, Materials, methods and injection techniques (*micro-needling, micro papular, linear, fan etc*)
 11.00 - 11.30 : *Coffee break*
 11.30 - 12.30 : Skin rejuvenation and augmentation with growth factors and stem cells (i-PRF & A-PRF liquid) - Cleopatra technique TM
 12.30 - 13.30 : *Lunch*
 13.30 - 14.30 : Phlebotomy- Preparation of the patient and the clinic - Injection techniques - New Protocols
 15.30 - 16.00 : *Coffee break*

PRACTICAL PART

16.00 - 17.00 : Marketing in Dentistry- Live patient demonstration
 17.00 - 17.30 : Questions and Answers

The last updates from the inventor of PRF :

NEW : Sticky bone & Facial aesthetics

Venue: Crowne Plaza Hotel Athens
 Michalakopoulou 50, Athina 115 28, Greece

Registration: Fee for 2 days seminar : 800€ *Including taxes + coffee breaks and lunch*
